ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: RECLINE MECHANISM FOR SEATING FURNITURE

(57) Abstract: A seating furniture (1) including a frame (5, 6, 7);
at least one support member (2, 3) adapted to provide support to a
user in use; recline mechanism (4) connecting the support member
(2, 3) to the frame (5, 6, 7), the recline mechanism (4) including;
a housing positioned on one of either the support member (2, 3) or
the frame (5, 6, 7) and an extending portion (11) of the frame (5, 6,
7) and an extending portion (11) of the frame (5, 6, 7) positioned
on the other of either the support member (2, 3) or the frame (5, 6,
7) said housing receiving the extending portion (11) within a cavity
(10) bounded by a cavity wall; and biasing means (12) located in-
side the cavity (10) between at least a portion of the cavity wall and
the extending portion (11), wherein tilting movement of the support
member (2, 3) causes a rotation between the cavity (10) and the ex-
tending portion (11) thereby engaging the extending portion with
the biasing means (12), causing said biasing means (12) to generate
a restorative reaction biasing force against the rotation.
